

SCHOOL WILDLIFE ON WHEELS

Can't make it to the Sanctuary? That's ok! We can bring the Sanctuary to you!

Using our purpose built Discovery Wagon; our qualified educators will bring a range of Australian animals to your school or centre. Our presentations are Australian Curriculum linked and our educators present on a range of topics linked to your current classroom curriculum focus (Please specify your curriculum focus when booking). We also cater for specific topics being explored as requested. Alternative presentations for childcare and vacation care groups, ESL groups, special events, and non-curriculum linked presentations are also available on request.

Our Wildlife on Wheels presentation brings your classroom to life. Watch how students are engaged with the opportunity to meet some of our stunning Australian native wildlife, including birds, snakes, lizards and mini-beasts (animals subject to availability) while learning all about the animal and its role in our environment.

We also run Indigenous Wildlife on Wheel programs, bringing Indigenous culture right into your space. Our Indigenous Officer shares his detailed knowledge of culture with students with the use of traditional weapons, ochre, Dreamtime stories, visual aids and of course, animals.

Please contact the Education Department for a quote.
